# Maintenance/Repairs: Work Orders

- Work order
  - Repairs
  - Parts
- Work Order logs bucket
  - Open orders
  - Closed orders

The screenshot shows a web-based maintenance management interface. At the top, there is a header for 'Critical Care Transport Series 200' with a small image of the vehicle and the text 'Air Station Fourchon / Era Rescue 1'. To the right of the header is a 'Barcode Search' field with a 'GO' button. Below the header is a navigation bar with left and right arrows. The main content area features a '+ Add a Repair' button in the top right corner. Below this is a search bar with a magnifying glass icon, a 'GO' button, and a 'CLEAR' button. A horizontal menu with letters A through Z and 'All' is positioned above the search bar. The central part of the interface is a table titled 'Item Repairs' with the following columns: Name, Description, Status, Downtime Start, Downtime End, and Cost. The table contains three rows of repair records. At the bottom of the table, there is a pagination bar showing 'Records 1-3 of 3' and navigation buttons for 'First', 'Previous', 'Next', and 'Last', along with a 'Per Page' dropdown set to '10'. To the right of the table is a 'Current Item Statistics' box with two rows: 'Total Quantity of Items' with a value of '3' and 'Total Value of Items' with a value of '\$280.00'.

Name	Description	Status	Downtime Start	Downtime End	Cost
Fix tire leak	Patched tire leak in drivers rear tire	Completed	05/30/2012	05/30/2012	\$15.00
Replace brake pads	Must replace front brake pads	Open	05/30/2012		\$140.00
